

## How to run this application:

### Prerequisite

- You need to have Java version 14 or higher installed on your machine.
- [Download Java](#)
- Choose Windows X64 Installer for Windows
- Choose MacOS Installer for Mac

### In Mac/Linux environment

1. Unzip the zip file, you will find **assignment.jar**
2. On your terminal, navigate you on the directory where there is **assignment.jar** file then run this command line:  
`java -jar assignment.jar`

### In Windows environment

1. Unzip the zip file, you will find **assignment.jar**
2. Right-click of the **assignment.jar** file, click **properties**
3. Click Change - click more apps - click Look for another app on this PC - navigate to **C:\Program Files\Java\jdk-15.0.1\bin\ javaw** - click OK
4. Open command prompt as administrator, type following command: `ftype jarfile="C:\Program Files\Java\jdk-15.0.1\bin\javaw.exe" -jar "%1" %*`
5. Open your Notepad, type as follows: `java -jar assignment.jar`
6. Save the **Notepad** file as run.bat
7. Open **run.bat**
8. If you still can't open the file, install [jarfix](#)
